Dear Christine,

Here are some lines about the HILUS - my visit was quite long ago, so I found better to write in general terms:

Within the context of the Austrian art scene the HILUS provided me a unique organisation model. I most appreciated its initiatives to open and keep alive new communication structures, its flexible principles of networking with groups from neighboring fields. And of course, the archive, the most comprehensive and updated collection of information on media arts I could explore in Vienna at that time (autumn 1995).

Looking forward to see you,
Best wishes,
Judith
