COMPUTERS ART REPRESENTATIONS OF SLOWENIAN AUTHORS

From the August 19th till the September 2nd 1995, MKC will organize computers art representation of Slovenian authors: computers graphic, animations, music and cybernetic art - cyberspace, robotart, interactive art and Virtual reality.

Goal of the project is full representation, for now in Slovenian, not so well known art productions. We have intention to organize exhibitions, concerts, projections, lectures and instalations. We invite some authores and lecturers from foreign countries. With the representation of all this guests, we would like to encourage the crative confrontation with international production and encourage international exchange of art pieces. We invite You to cooperate inside our project.

We are very interested for the presentations of Your program wich we would organized like a projections, lecture or distribution of Your program.

Confirmation of Your cooperation and the other details confirm on the address:
