Vienna, January 8, 1993

Dear Heather Barton,

I am writing to invite you to lecture on Audiovisual Art at UNIT_N , the first international Event for research in Media-art, from February 8. to March 21. 1993, organised by HILUS and independent artists.

UNIT_N will be staged in Vienna, Austria, from January 15. to April 15., 1993. UNIT_N will include four weeks of workshops and courses, three Symposions [Women in Media-art, Culture and Technologie, Art in Computer-Networks], up to twenty Presentations/Performances/ Lectures where artists present their own work and research, and every Wednesday MEDIALITY, a open platform for up-to-the-minute presentations about special areas of research and endeavour.

We are particularly interested in your current work in the arena of electronic art and believe that your contribution in the form of lecturing where you present your work would be valuable. In addition, we would welcome your presence at UNIT_N, allowing networking with Austrian and other artists, and the opportunity for the personal exchange of ideas and negotiation of artists' exchange programs.

HILUS funds are severely limited and this means that we cannot assist you with funds for travel or per diems, although accommodation is available. We hope that you may be able to raise finance through the Australia Council.

I look forward to hearing from you shortly.

Sincerely,

Mag. Christoph Nebel
Chair: HILUS- Institut for research in Media-art, Vienna/Austria.
