Dear Christoph

1. It's fine for Colin to do a paper on the 3.3.93. and I could present the Show reel of Australian material at the same time.

My lecture scheduled the same time as Kathy Rae Huffman and Professor Zielinski on the 13.3.93. is fine also. I was hoping to go to Prague over the weekend of the 8th perhaps between the 5th-11th of March as the schedule is free for part of this time but will be back in Vienna for the 13.3.93. As I've said I don't have a committment until late March so I could stay until then finances allowing and assuming there is accomodation.

So I guess this means Colin and I will stay with Herwig 23.2.93-4.3.93 (10 days) and maybe on the night of the 11th or 12th assuming this is OK with him. After that arrangements can be made as necessary.

2. I think it is best to put the money straight into my account for which you already have the details as this is the quickest way to proceed and I will send a receipt to Dr Robert Fleck. However I have included an invoice in case this is the best way to proceed.

3. And no I am not confused about the difference between Mediality and Binary Windows and do now understand that Mediality is an informal presentation. Yes I will incorporate my research of last year into the Binary Windows paper.

Thank you for your letter of invitation to Colin. Given that I will be in Vienna in less than two weeks I will be most excited to see you.

Love

Heather
