

it's try to get the best way out of our communication breakdown!

never got the fax you send me on Jan.16., even your privat fax arrived. So we missed the possibility to correct the date. I went through the timetable and believe it's the best to put Colin to the Mediality on March 3. (he will have time as long as he needs!)

and your Lecture together with Kathy Rae Huffman (former Video curator at the Boston Museum of Modern Art) and Prof.Dr. Siegfried Zielinski(Berlin) on March 13. We can't guarantee a "full House" out of the audience reaction to our changes even we try our best!

Will we would like to know how long you could stay? (late March?)

Problem/Flight: It is not possible to get a cheap fare from that end. I'm now checking to send you the money.

This should'nt be a problem, especially for such a price.

I am not shure but i think it is 12 000.-Austrian schillings?)

Please call or fax me whats the best/quickest way to send it to you or the agency/airline (Bank/Post? Account?) and that we get a special bill adressed to Dr.Robert Fleck, BMUK
Inoritenplatz 5, A-1014 Wien.

Lecture: I hope you did'nt misunderstand the difference between Mediality and the Lecture. Mediality has no Timelimit out of the fact that only one or two persons are presenting unexpected material .(So if you get the showreel together , it's enough to improvise your speech and do it at the same Mediality as Colin)

For your Lecture I thought it would be very interesting to hear about your travel last year and your impressions .(So not about Australian Video/Media-Art especially !)

Christoph
