Vienna, 24. 1. 1992

Dear Kid,

thank you very much for your information. It was exactly what we expected. I'm sorry that I cannot criticise your concept, for it fits so well in our concept of UNITn: room for art incorporatin new technologies.

I think you will like the enviroment and atmosphere here. About 100 Artist will be connected to our events. And they become more and more.

We have a lot of troubles with the ministry, but I'm sure that we will get trough it. Don't worry your flight and your money is guaranteed. If it's okay for you, you could go with the Austrian Airlines from New York on March 15 and stay until march 21. I dont't know exactly what time the plain leaves, but if this dates are o.k. for you we will book the flights from Vienna. You will get your tikets at the Austrian Airline counter.

But as I told you in my last fax, you could stay as long as you want, you only have to tell me.

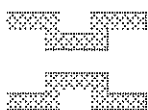

In the next days you will get a program of UNITn in english. In it there are short descriptions of the other events and the exact dates and times. So you can get an idea what UNITn is. It's defnity not an exhibition, its more a field that is created by about eleven groups and about 100 Artists. It grows and will be working when the events are over.

You can reach us with telefon in the Projektraum  
nr: + 43 222 405 87 91 and fax: + 43 222 405 87 93.

Say hello to your friends, I'm sure we will invite them in one of our next projekt,

Greetings

Herwig
