

Kit,

Bring as much stuff as you can. We have enough time and enough space to discuss and present your works and that of your friends.

I would like to invite also your friends to Vienna, they could live in my flat, but we do not get more flight`s from the "museum in progress". But again: if you need we could send some official invitations and mybe you can get some money from your government.

I think your offer to work as a slave for UNITⁿ is realy helpfull for us, because we work every day about 8 to 10 hours on organisation and comunication with several international institutiones and groups.

We think of HILUS as an international platform. You would be one of the first international guests and if you want you could become member also. So you could help us in designing HILUS.

I have aranged some interviews with young austrian journalists, and also with Austrian Radio, so if you prepare some material maybe also for TV we could get some publicity for you and your friends. The sooner you send me fotos and Videos and so on, the more attentione you will get in Vienna.

I think the best date to leave N.Y. is the 13th and to leave Vienna on April the 1th or the 2nd. I will chek it on monday or tuesday next week.

Today is my birthday an if you can manage it I invite you to a dinner with friends at 8p.m. in the "Beograd".

Herwig
